

RAIZER®

by Liftup

Raizer is a mobile lifting chair that helps people who have fallen to be up again in just a few minutes. Raizer can be operated by a single assistant and requires only limited physical effort beyond the help of a supportive hand.

Raizer can be operated by one person

- Raizer gives you more freedom and independence, allowing you to get up on your own.
- More able wheelchair users can move themselves from the floor to their chair and vice versa.
- Using Raizer helps a person to be independent and stay at home for longer.
- A family member can help with the lifting, so there is no need for any outside help.
- It usually requires two people to lift a person from the floor, but Raizer lets you do it independently.

- Fast and easy assembly (3 min.) around the person on the floor.
- Lifting using Raizer requires only a minimum of physical effort.
- A Raizer lift is a comfortable experience.
- The lifting process is ergonomically correct and no additional belts or straps are needed.

Minimal manual handling

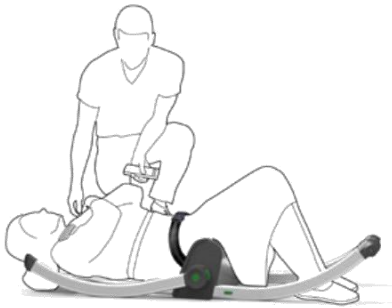

- Compact storage.
 - Can be carried in cars, boats, on a bicycle, to your holiday cabin, etc.
 - Raizer is easy to transport packed in two bags.
 - Easy to operate in a confined space.
 - Easy to disassemble after use.
 - A good investment compared with other aids and methods.
 - Easy to clean and disinfect.
 - Fast and easy disassembly and packing (2 min.)

AN EXCELLENT INVESTMENT, BOTH PRACTICAL AND ECONOMICAL

- The Raizer design has color coded parts that assist in correct assembly and disassembly.
- Extra equipment such as a trolley (with stair wheels), a bike bracket and connectable remote control.
- Durable materials provide a long lifetime.
- Raizer may prove to be good investment compared with other lifting aids.
- Contact Liftup for more information relevant to your situation and needs.

Equal opportunity for all

Liftup designs and develops welfare technology aids based on our values of dignity, safety and equal opportunity for all. As a caregiver, you will see that Raizer ensures stability and safety, and also helps you save time, maintain a healthy posture, and protects you from overexertion.

At Liftup A/S our principle is to work continually toward the innovative development of welfare technology products. Liftup was founded in 2003, and is a wholly privately-owned Danish enterprise.

Aesthetics, design and safety are essential in everything we do within the field of welfare technology. We don't make machines, we make welfare aids that preserve the dignity of their users.
